Date: March 29, 2010

To: All Prospective Bidders

From: City of Beaumont

Project: Sidewalk Improvement Project Phases II & IV

Part One: City Clarifications

- I. Attention is directed to the following:
 1. General Conditions Paragraph 01 "DEFINITIONS"
Section b should read "Engineer and Director of Public Works means ~~Director of Public Works~~ Consulting Engineer for the City of Beaumont, and includes his authorized representatives."
 2. General Conditions Paragraph 18 "INSURANCE – HOLD HARMLESS"
The first line should read " In lieu of *addition* to the provisions of Section 7-1.12, the following shall apply:"
- II. Phases II & IV will be treated as ONE big project with two sub-projects being Phase II and Phase IV. The lowest responsible bid will be based on the total of the two sub-projects. Attached Proposal Form must be used in the bid submittal.
- III. A corrected proposal form for Phase IV is attached and must be used in the bidding process. Note that "Beaumont & Brookside Avenue" was deleted from the title and Item 7 is added. Items 6 & 7 are NOT "Like Bid Items."
- IV. Attention is directed to INSTRUCTION TO BIDDERS No. 11 "Like Bid Items." Item No. 7 of Phase II and Item No. 4 of Phase IV are herein considered as "Like Bid Items."

Part Two: Answers to Questions

Question 1: On Phase II & III, we have curb and gutter item but no asphalt slot. a) Where should the asphalt item go? b) What is the maximum thickness we should figure with the variable paving items? C) Is fog seal required over the asphalt?

Answer 1: a) Asphalt item to fill asphalt slot will be paid as Meandering Sidewalk in SF if the

average thickness is 2" considering a 24" strip wide along the gutter. The remaining square footage will be paid as Variable Thickness Overlay.

b) The average thickness for overlay should be 2".

c) Fog seal is not required.
